

ECD Kits and Learning Tools

Baby Toddler Pre Grade R Grade R

Practitioner's guides

Available in English , Afrikaans , isiXhosa , isiZulu

The Vivlia Clever Range

The **VivliaClever** range of ECD products are a must have for every South African preschool, creche and grade R class. Our product range has been carefully developed in collaboration with skilled and experienced ECD practitioners to ensure that all items are suitable to be used to facilitate curriculum outcomes and support practitioners. All our ECD products are made from durable, non-toxic material making them safe for younger learners. Our Programme guides, posters and books are available in different South African languages.

Baby programme (0-18 months) and Toddler programme (18-26 months):

- These programmes have a teacher's manual explaining daily procedures needed in caring for babies and toddlers.
- The programmes are divided into themes and activities aligned with the NCF.
- The programmes have a selection of developmentally appropriate educational toys to be used daily.

Pre grade R

- Pregrade R programme is divided into 36 weeks with themes and detailed activities.
- Themes and activities aligned to the NCF.
- The programme is play based and can be used in multiple contexts.
- Programme provides a detailed explanation of the use of all kit items.
- All equipment is multi use and designed for children working in groups.

Grade R

- The Grade R kit is an integrated kit covering **Language, Mathematics** and **Life skills**.
- The manual explicitly outlines how each learning tool links to the **CAPS**.
- The Grade R kit caters for both experienced and entry level practitioners.

Training workshops:

We provide training workshops on the use of all our kits to ensure that practitioners are able to effectively and efficiently use the kits in the classroom.

Plastic Container	1						

A large black plastic storage bin is overflowing with a variety of colorful children's toys and supplies. On top of the bin are several containers of 'Super Colour Powder' in yellow, blue, and green, along with a blue toy airplane and a yellow toy car. To the left of the bin is a large orange hula hoop and an orange ball with the word 'clever' written on it. In front of the bin are two small dolls, a stack of colorful rings, a blue and orange toy basket, and several colorful bowling pins. To the right are several children's books, a pink comb, and a black ball. The entire scene is set against a plain white background.

Practitioner's Guide Toddler	1						
Plastic Container	1						

A large assortment of children's toys and educational materials is displayed against a white background. Two black plastic storage bins are stacked vertically. On top of the upper bin sit two dolls of African descent, several colorful plastic building blocks (blue, yellow, green), and a small red toy car. A book titled "Alonah's room" is propped up against the side of the bin. In front of the bins, there are two large, multi-colored hula hoops. To the left is a pink toy car with a large orange ball inside it that has the word "cl-ver" written on it. Various other items are scattered on the floor, including two jars of paint, a box of crayons, a blue bucket, a red bucket filled with tools, a green bucket, a red balloon, a blue and yellow rolling pin, a green mat, and several activity cards or flashcards showing different scenes and objects.

1x Plastic hammer

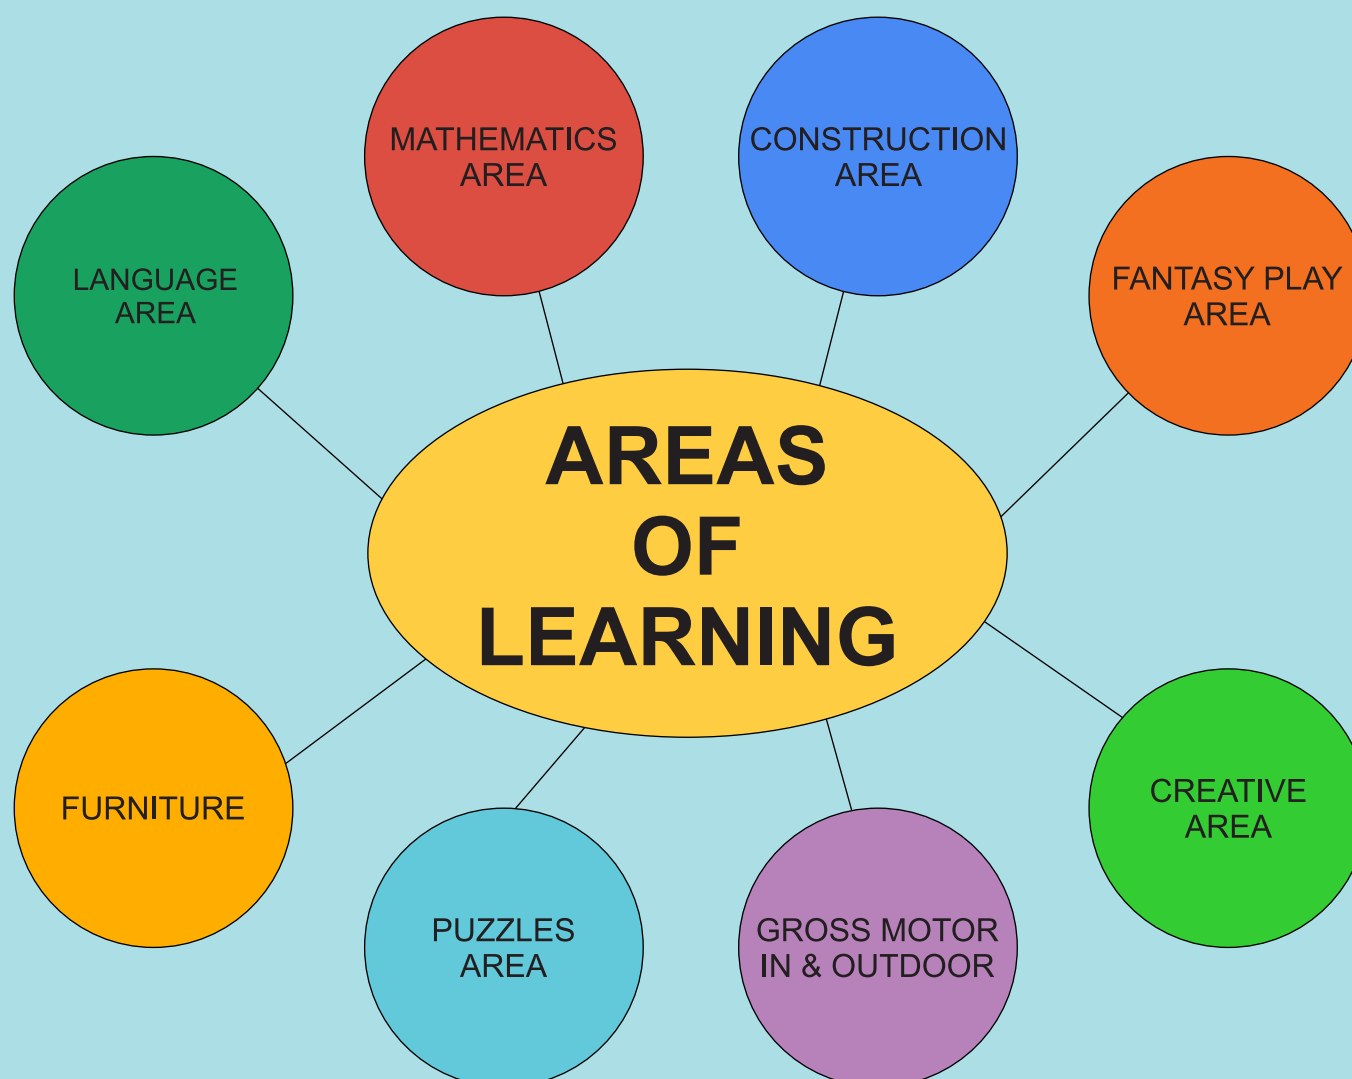

AREAS OF LEARNING IN A CLASSROOM

The key to any learning is a stimulating environment that enables spontaneous and real knowledge sharing and learning through play. The Department of Education has released a recommended classroom layout for all Grade R's. The layout is there to offer guidance to you, the practitioner.

This catalogue gives guidance on the materials Vivlia Clever offer for each of these Learning Areas proposed by the Department of Education
